## Access Extension Settings

- In Magento Admin Panel, go to **Stores** → **Configuration** → **Mavenbird** → **Share on WhatsApp**.

## Using the Extension

### Share Products via WhatsApp

- Navigate to any product page on your Magento store frontend.
- Click on the WhatsApp share icon or button integrated with the product details.

### Select Contacts or Groups

- Choose a contact or group from your WhatsApp contacts list to share the product link with.

### Customize Messages

- Optionally, personalize the message accompanying the shared product link before sending.

### Troubleshooting

#### Extension Not Displaying

- Ensure the extension is properly installed and enabled in Magento Admin.
- Clear Magento cache and browser cache to refresh display.
